

SA EMERGING MARKETS VALUE FUND

As of 12/31/2022

The Fund's goal is to achieve long-term capital appreciation. The Fund pursues its goal by generally investing in a broad and diverse group of equity securities of companies in emerging markets, which may include frontier markets (i.e., emerging market countries in an earlier stage of development). The Fund intends to purchase securities of companies with small, medium and large market capitalizations in their respective markets that the Sub-Adviser considers to be "value" stocks at the time of investment. The Fund seeks to achieve its goal by investing in companies in countries designated by the Investment Committee of the Sub-Adviser from time to time as approved markets. The Fund is authorized to invest in the following approved markets: Brazil, Chile, China (including China-A shares which are equity securities of companies listed in China, accessible through the Stock Connect program that connects mainland China markets with the Hong Kong Stock Exchange), Colombia, the Czech Republic, Greece, Hungary, India, Indonesia, Malaysia, Mexico, the Philippines, Poland, Russia, Saudi Arabia, South Africa, South Korea, Taiwan, Thailand, Turkey, and the United Arab Emirates. The Sub-Adviser may authorize other countries for investment in the future in addition to the approved markets listed above. In addition, the Fund may also continue to hold securities associated with countries that are not listed above as approved markets but had been authorized for investment in the past and may reinvest distributions received in connection with such existing investments in such previously approved countries. As a non-fundamental policy, under normal circumstances, the Fund will invest at least 80% of its net assets in emerging markets investments that are approved market securities.
