

SA REAL ESTATE SECURITIES FUND

As of 12/31/2022

The Fund's goal is to achieve long-term capital appreciation. The Fund pursues its goal by generally investing in readily marketable equity securities of companies the principal activities of which include ownership, management, development, construction or sale of residential, commercial or industrial real estate. Investments will include, principally, equity securities of companies in the following sectors of the real estate industry: certain real estate investment trusts ("REITs"), companies engaged in residential construction and firms, excluding partnerships, the principal business of which is to develop commercial property. The Fund generally considers a company to be principally engaged in the real estate industry if the company: derives at least 50% of its revenue or profits from the ownership, management, development, construction or sale of residential, commercial, industrial or other real estate; has at least 50% of the value of its assets invested in residential, commercial, industrial or other real estate; or is organized as a REIT or REIT-like entity. REIT or REIT-like entities are types of real estate companies that pool investors' funds for investment primarily in income producing real estate or real estate related loans or interests. The Fund will make equity investments in securities listed on a securities exchange in the United States that is deemed appropriate by the Sub-Adviser.

Investing involves risk, principal loss is possible. REIT investments are subject to changes in economic conditions, credit risk and interest rate fluctuations.

Effective April 1, 2022, the Fund's primary benchmark changed from the Dow Jones US Select REIT Index to the Morningstar US REIT Index.

The Morningstar® U.S. REIT IndexSM (Morningstar US REIT TR USD) is a subset of the Morningstar® Global REIT IndexSM family. The Index tracks the performance of U.S. publicly traded REITs that have been identified for inclusion in the Index by a proprietary Morningstar industry classification methodology known as "GECS." The qualifying standards for inclusion are that the REIT must contain companies that own, manage or lease investment-grade income-producing commercial real estate. The Index is calculated on a total return basis and is measured in U.S. dollars.

The Dow Jones U.S. Select REIT Index(DJ US Select REIT TR USD) is a float-adjusted market capitalization index designed to measure the performance of publicly traded real estate companies that have a minimum market capitalization of at least \$200 million, at least 75% of total revenues derived from ownership and operation of real estate assets, and liquidity of company stock commensurate with that of other institutionally held real estate securities. This index is unmanaged and reflects reinvested dividends and/or distributions, but does not reflect sales charges, commissions, expenses or taxes.
